STAN STEPHENS  
GOVERNOR

State of Montana  
Office of the Governor  
Helena, Montana 59620  
406-444-3111

December 18, 1991

Honorable President and Members of the Senate  
Honorable Speaker and Members of the House

Honored Members:

In accordance with Article VI, Section 9, of the Constitution of Montana, I am hereby transmitting to you my proposal to bring the 1992-93 biennial budget into balance by the end of the current biennium.

Tough economic choices face Montana, and many other states as well. But despite the difficulty involved, we must discharge our responsibility to keep the state budget balanced. In order to meet our constitutional obligations, we must address a revenue shortfall and other needs totalling \$105.9 million.

This revenue shortfall can be traced to projections made during the regular session last spring which were too high. In addition, a structural imbalance has taken its toll over the last decade, as the state has spent more than it has received in revenue. Montana must reduce spending to begin to address this ongoing structural deficit.

Contained in this executive budget are proposals which do not rely on tax increases. It is not necessary to increase taxes. It is necessary to reduce spending. To that end, our goal has been to identify reductions in the increases in appropriations given during the 1991 legislature. The enclosed proposals accomplish this goal.

The process used to identify these reductions in increased spending was exhaustive and thorough. It relied on the best judgements of each department director and their staff. Their goal was to reduce their agency's general fund spending in a manner which caused the least disruption to the services they provide to Montanans. I believe they have reached that goal and should be commended. I encourage the legislature to give great credence to the analysis and prioritization completed by state agencies and the Office of Budget and Program Planning.

In addition to spending reductions, other considerations included within this recommended budget are worthy of mention. First, we ask the legislature to convert the state's 30 remaining state-run liquor stores to agency status, using the proceeds to

offset the tuition surcharge imposed on students by the Board of Regents. Coming as it does, in the middle of the school year, it is only fair to the students that these increases be abated.

Likewise, the immediate imposition upon local governments of the costs of court-ordered evaluations proposed earlier in the reduction process may place undue strain upon other local services. Our proposal restores FY 92 funding for this service.

In order to provide stability in the state's cash flow, to help us to address supplemental appropriation requests and to lay the foundation for more reliable revenue estimating, I have also included within my recommendations a bipartisan proposal to assure the quarterly payment of estimated state individual income taxes.

Various fund transfers and revenue deposits to the general fund also are proposed. Several of these recommendations were developed by executive agencies to create efficiencies and improve program management, as well as to limit the potential for additional program reductions.

No proposal in this budget directs any change in school equalization account funding for K-12 education.

My recommended budget also includes an ending fund balance of \$11.1 million. Given the volatility in interest rates and oil prices alone, it is essential that we leave an adequate ending fund balance to weather further unexpected change in Montana's financial picture during the next year.

I again offer you the full cooperation of my office and all agencies in the completion of your work. Best wishes.

Sincerely,

STAN STEPHENS  
Governor

# INTRODUCTION

## PRESERVING PRIORITIES, PROTECTING TAXPAYERS

The philosophy behind the executive recommendation for this special session is straightforward: Take the necessary actions to preserve essential government services, protect the taxpayer from general tax increases, and direct the state safely into the 1993 legislative session where major decisions will need to be made about revenue, spending and Montana's priorities.

To accomplish this, the enclosed proposals: 1) make reductions in state general fund spending to address the shortfall in revenue, 2) find fund transfers or other revenue in order to address supplemental funding requests that cannot be held for the 1993 session and 3) provide for an adequate ending fund balance to address unexpected issues which may arise.

### Preserving Priorities

Given the increases in general fund budgets which were realized through the 1991 Legislature, executive recommendations can resolve the situation facing us without jeopardizing essential services, the first and foremost of which is the education of our people. Along with education, human services and corrections are the state's next highest budgetary priorities. Chart I below underscores the predominant impacts of these three services on state spending.

---

## CHART I

---

### TOTAL GENERAL FUND AND SCHOOL EQUALIZATION APPROPRIATIONS 1993 BIENNIUM

Education is U-System, OPI, Bd Pub Ed, School for Deaf & Blind  
Human Services and Corrections is SRS, DFS, DCHS

---

Chart 1 shows that the largest share of state dollars are appropriated for K-12 education and that a total of 63.3% of all general and school equalization funds are utilized for education. Human services and corrections receive 22.4% and all other agencies including debt service receive 14.3%.

#### Growth After Reductions

Choices about where to reduce spending have not been easy, or painless. It would be a certain indictment of state government, and those who govern, if reductions could be made without any negative impact on services. However, the actions proposed by the administration will not cause irreversible damage to the current programs of state government. Chart 2 below indicates the growth in agency budgets over the 91 biennium actual expenditures, despite the impacts of the administration's proposed reduction plans.

---

## CHART 2

---

Growth in General Fund Budgets After Reductions  
Compared to 1991 Biennium Actual Expenditures

---

After recommended reductions, education budgets increase 24.2%; human services 21.3%; general government including debt service 15.2%; institutions 10.5%; and natural resources, including \$6.4 million for forest fire suppression costs, 3.5%.

### Agency Recommendations Generated Savings

Administration decisions about where to reduce state general fund spending have been generated from within state agencies. Table 1 below illustrates the variety of actions proposed to avoid direct reductions in budget authority.

---

TABLE 1

---

SOURCE OF SAVINGS	--OBPP RECOMMENDED--	
	FY92	FY93
SPECIFIC SERVICE REDUCTIONS	\$2,946,407	\$1,605,378
SERVICE EFFICIENCIES	1,754,926	4,476,953
IMPLEMENTATION DELAYS	2,310,455	2,953,803
NONSPECIFIC SAVINGS	4,627,846	17,912,983
AGENCY REVENUE ACTIONS	7,364,446	6,231,086
FUNDING CHANGES & TRANSFERS	<u>6,359,775</u>	<u>3,743,335</u>
TOTAL	<u>\$25,363,855</u>	<u>\$36,923,538</u>

---

Specific service reductions from appropriated levels total \$4,551,785 for the 1993 biennium and include fewer improvements to school trust lands, less of an increase in state aid to libraries, a lower number of data processing runs and hard copy published reports in numerous state agencies, reduced number of agricultural counseling cases, and a smaller increase in Human Rights Commission caseload expansion plans.

Service efficiencies will not result in reduced service levels because the same or greater service will be provided at a cost less than that appropriated by the 1991 Legislature. Budget reductions for service efficiencies total \$6,231,879 for the 1993 biennium.

Implementations delays of new or expanded services account for \$5,264,258 of recommended reductions. Implementation delays do not always mean service reductions because hiring difficulties, contract negotiations, multi-agency planning and coordination, bidding procedures and other factors frequently affect start-up of new programs or expansions of existing programs. A significant portion of these funds would have reverted to the general fund without legislative action. General fund reversions in FY91 were approximately \$10.2 million.

Nonspecific savings is the largest source of service reductions to state government. These \$22.5 million reductions include increasing vacancy savings, holding down operating expenses and equipment purchases, and decisions yet to be made by the Board of Regents.

#### Elected Officials' General Fund Reductions

The 1993 recommended reductions of \$1,521,250 from Office of Public Instruction (OPI) leave untouched more than 99.8% of the funding for OPI and the foundation program. Total spending in these areas will exceed \$896 million for the biennium.

Table 2 below shows the amount of reductions for the five elected officials, which range from -5.11% in the Governor's Office to +42.19% in the Office of the Superintendent of Public Instruction.

TABLE 2

	TOTAL BIENNIUM REDUCTIONS	% CHANGE FROM ACTUAL 90-91 EXPENDITURES	TOTAL BIENNIUM REDUCTIONS + FUND TRANSFERS	REDUCTIONS + FUND TRANSFERS AS % OF APPROPRIATED	REDUCTIONS AS % OF APPROPRIATED
GOVERNOR	(268,881)	-1.63%	(296,881)	-5.64%	-5.11%
ATTORNEY GENERAL	(1,085,278)	21.90%	(1,546,078)	-5.94%	-4.17%
STATE AUDITOR	(165,000)	-3.95%	(165,000)	-3.50%	-3.50%
SECRETARY OF STATE	(70,000)	10.06%	(110,000)	-5.29%	-3.37%
OPI	40,012,750	149.81%	40,012,750	42.19%	42.19%

(1) A portion of the costs of the warrant writing system switched from general fund to state special revenue in HB 2 beginning FY92.

The bad debts collection function switched from general fund to proprietary funds in HB 2 beginning FY92.

Excluding these funding switches, the recommended general fund for the biennium would increase 8.8% over FY90-91 actual expenditures.

(2) The Superintendent of Public Instruction includes a \$41,534,000 supplemental for K-12 schedules.

### Limiting Impacts

As outlined in the call for the special session, executive budget recommendations include no action to reduce the school equalization account. In addition, the reductions proposed for the Office of Public Instruction (OPI) will be well below the historic eight percent reduction target, despite major increases in funding and personnel received by OPI from the 1991 legislature.

The recommendations are also designed to limit the impacts in other critical areas. For example, a plan to negate the need for tuition surcharges on students at Montana's public institutions of higher learning for the coming semester is proposed. Special concern was given to preserving existing human services.

Particular care was taken to limit the impact of necessary actions on state employees. Concerns have been raised about the high levels of vacancy savings proposed in the original executive reduction plan, and those proposals remain essentially intact in this executive recommendation. But it is important to note that boilerplate restrictions in House Bill 2 make this a more feasible alternative than other reductions. Because funds may not be moved from personal services into other expenditure categories, some agencies have chosen to increase vacancy savings, realizing that later revisions in operating budgets would allow the movement of excess authority from operating expenses and equipment to cover personal services shortfalls.

### Local Government Impacts

Also of concern is the impact of budget reductions on local governments. More than \$70 million of the state funds are distributed annually to local governments. Excluding the impact of a substantial supplemental appropriation for schools, the executive recommendation includes reductions of \$4,159,157, of which only \$2,159,157 are a reduction in "hard" dollars. Two million dollars of the impact is a one-time reduction in the appropriation to the Coal Board.

TABLE 3

## IMPACTS ON LOCAL GOVERNMENT UNITS

## GENERAL FUND REVENUES

Since the adjournment of the 52nd Legislature, the performance of certain of the state's key general fund revenue sources eroded relative to anticipations. Revenues at the close of fiscal year 1991 were \$11.1 million, or 2.6%, short of the estimate.

The fiscal year 1991 shortfalls sparked a review of all general fund revenue sources. Two solid facts emerged from this review: many of the factors which contributed to the 1991 shortfall would remain throughout the 1993 biennium and the continued national recession would cause further revenue reductions from anticipated levels.

These facts forced a significant downward revision in general fund revenue estimates for the 1993 biennium. The current executive revenue estimate revision reduces the legislative general fund revenue estimate by a total of \$38.7 million, or about 4%. Table 1 below shows the HJR 24 estimated receipts, revised estimates and differences.

TABLE 4

REVENUE CATEGORY	Fiscal Year 1992			Fiscal Year 1993		
	HJR 24 ESTIMATED RECEIPTS	REVISED ESTIMATE	REVISION DIFFERENCE	HJR 24 ESTIMATED RECEIPTS	REVISED ESTIMATE	REVISION DIFFERENCE
General Fund Revenues:						
Drivers License Fee	\$1,571,000	\$1,543,000	\$(28,000)	\$1,577,000	\$1,577,000	\$0
Insurance Tax	18,518,000	18,497,000	(21,000)	17,885,000	19,680,000	1,795,000
Vehicle Regis. Fee	7,883,000	9,134,000	1,251,000	8,055,000	9,442,000	1,387,000
Vehicle License Fee	2,710,000	2,948,000	238,000	2,781,000	3,066,000	285,000
Poker License Fee	6,969,000	7,239,000	270,000	7,517,000	7,800,000	283,000
Beer Tax	1,272,000	1,225,000	(47,000)	1,280,000	1,226,000	(54,000)
Coal Severance Tax	5,939,000	6,086,000	147,000	5,913,000	5,864,000	(49,000)
Corporation Tax	32,715,000	31,440,000	(1,275,000)	32,240,000	33,360,000	1,120,000
Electrical Energy Tax	4,239,000	3,984,000	(255,000)	4,241,000	4,055,000	(186,000)

Institution Reim.	13,458,000	13,645,000	187,000	13,037,000	13,335,000	298,000
TCA Interest Earnings	22,276,000	18,725,000	(3,551,000)	25,092,000	18,377,000	(6,715,000)
Liquor Excise Tax	5,710,000	5,548,000	(162,000)	5,691,000	5,571,000	(120,000)
Liquor Profits	4,363,000	4,141,000	(222,000)	4,302,000	4,144,000	(158,000)
Coal Trust Earnings	44,045,000	42,037,000	(2,008,000)	45,432,000	43,340,000	(2,092,000)
Long Range Bond Excess	43,829,000	42,540,000	(1,289,000)	44,451,000	43,200,000	(1,251,000)
Other Revenue	22,753,000	22,753,000	0	23,304,000	23,304,000	0
Total General Fund	\$487,650,000	\$468,932,000	\$(18,718,000)	\$497,164,000	\$477,214,000	\$(19,950,000)

Two general revenue sources explain most of the downward revision.

### Individual Income Tax

The state's largest general fund revenue source -- the individual income tax -- fell far short of estimates in fiscal year 1991. Total collections were roughly \$20 million below the legislative estimate.

Upon review, it was discovered that the factors contributing to the fiscal year 1991 shortfall are fully expected to continue throughout the 1993 biennium. As a result, general fund revenues were reduced by \$27.2 million for the biennium. A permanent reduction in the amount of non-wage income accounts for \$20 million of the reduction. The remaining \$7.2 million reflects the estimated effect of a prolonged national recession on income tax collections.

### **Interest Earnings**

Continuation of the national recession and less concern about inflation has sparked the Federal Reserve to attempt to stimulate the national economy by continuously lowering interest rates to the lowest level in two decades. Since the state receives significant earnings from investments, these actions are serious.

Short-term interest rates are currently expected to average about 2.5%, or 250 basis points, lower than the levels assumed in the legislative estimates as a result of the ensuing actions of the Federal Reserve. Long-term rates are expected to average roughly 1% (or 100 basis points) less than previously assumed.

The lower interest rates and, to a lesser degree, revised investable balances reduced interest earnings for the biennium by approximately \$14.4 million.

### **Other Sources**

On net the estimates for remaining general fund sources were increased by \$2.9 million. A \$2.9 million reduction in estimated oil severance tax collection due to wellhead prices lower than previously assumed was more than offset by increased estimates for other sources. Examples of estimate increases include the insurance tax (\$1.8 million), vehicle registration and license fees (\$3.2 million) and video gaming revenues (\$0.5 million).

## **GENERAL FUND BALANCE**

The revised revenue estimates for the general fund and school foundation program, and anticipated supplemental requests yield a general fund deficit of \$94.8 million by fiscal year end 1993. If an ending fund balance of \$11.1 million is desired, \$105.9 million of general fund reductions and/or revenue increases would be necessary.

The following table provides a projected general fund balance statement and includes a summary of the executive budget recommendations and their effect.

# GENERAL FUND BALANCE PROJECTIONS

TABLE 5

PROPOSED ENDING FUND BALANCE	<u>15.758</u>	<u>11.102</u>

## **Recommended Fund Balance**

The executive budget erases the \$94.8 million deficit and provides a fiscal year 1993 ending balance of \$11.1 million. Due to plummeting interest rates and the continuation of the national recession, it is essential that the special legislative session leave no less than this as an ending balance. The National Association of State Budget Officers reports that states are leaving an average of no less than 1.5% general fund balances following budget reduction special sessions and further explains that this is a very low, absolute minimum balance. A 1.5% balance for the State of Montana would be \$16.5 million.

## **House Bill 2 Amendments**

Proposed reductions in general fund appropriations authorized in HB2 of the 52nd Legislature and various "cat and dog" appropriation acts will be contained in amendments to HB2. These proposed reductions and funding changes total \$13.2 million in FY92 and \$30.5 million in FY93. In general, these primarily are reductions in increased appropriations passed during the regular session.

## **Agency Revenue Actions**

Agency recommended revenue initiatives total \$7.4 million in FY92 and \$6.2 million in FY93. A complete description of these actions is provided in a later section headed "General Fund Revenue From Action By State Agencies".

## **House Bill 3 Fund Balance and Revenue Transfers**

Various funding and revenue transfers to the general fund are recommended in HB3. These proposals divert \$1.5 million in FY92 and \$6.6 million in FY93 to the state general fund. The recommendations are outlined in detail below under the heading "Fund Transfers and Revenue Diversions Requiring Legislative Action".

## **Quarterly Estimated Tax**

A proposal to require income taxpayers to make quarterly estimated payments similar to federal law is requested to provide accelerated revenues of \$34 million in FY93. These revenues are to be earmarked to correct cashflow problems in accordance with the special session call.

## **Liquor Store Conversion**

The state's 30 remaining state-owned liquor stores are proposed to be converted to agencies. The action reduces costs and investments in inventory by an estimated \$4 million in FY93. The waiver of the FY92 college tuition increases approved by the Board of Regents is contingent on passage and approval of this proposal.

## **Correct Retirement Error**

SB226 of the 52nd Legislature unintentionally granted three retirement payments in the 1993 biennium because an effective date for the payments was accidentally omitted. Correction of this oversight will save \$2.9 million in FY92.

PUBLIC SCHOOL SUPPORT

County equalization shortfalls	(1.125)	(1.125)
Miscellaneous	<u>25.135</u>	<u>20.297</u>
Total County Equalization	\$111.540	\$107.945
Total available	\$385.038	\$356.980
<b>Expenditures</b>		
Foundation	\$347.200	\$347.016
Guaranteed tax base	46.500	47.436
Transportation/telecommunications	<u>4.056</u>	<u>4.062</u>
Total expenditures	\$397.756	\$398.514
<b>Ending balance</b>	<u>(\$12.718)</u>	<u>(\$41.534)</u>

Public School support will require a supplemental appropriation of \$41,534,000 to complete the 1993 biennium. The 1991 legislature left a need for a supplemental of \$11,208,000 as more expenditures were appropriated from the equalization account than was anticipated in HJR24 to be available. Subsequent to the session actual revenues for fiscal year 1991 and revised projections for the 1993 biennium indicate a further shortfall of \$33,890,000. The revenue shortfall is reduced \$4,500,000 by the executive proposal to deposit timber sale revenues to the interest and income account for school equalization, rather than the to permanent

fund. In addition, information on school year 1992 costs indicate they will exceed original projections by \$936,000.

Late in the 1991 legislative session, the conference committee on House Bill 2 added \$7.8 million of school equalization account appropriation to fund the increased state share of school transportation reimbursements resulting from Senate Bill 82. This occurred at a time when expenditures from this account already exceeded anticipated revenues. When the affects of other legislation upon equalization account revenues were added the legislative action left a \$11.2 million deficit which would have to be covered with a supplemental appropriation from the general fund.

Revenues for school equalization were \$22.5 million less in fiscal 1991 and are anticipated to be \$11.4 million less in the 1993 biennium than anticipated in HJR 24. The fiscal 1991 shortfall included \$6.6 million of statewide levy revenue that was due in fiscal 1991 but not received until after the year end with the result that it will be recorded in fiscal 1992. The major short falls are in the personal income tax which is anticipated to be short \$19.0 million over the three years, lottery which is anticipated to be short \$5.6 million, and the 95 mills on property which is anticipated to be short \$5.9 million.

The cost of the foundation and guaranteed tax base is \$936,000 higher than estimated for fiscal 1992 based upon preliminary budgets received by the Office of Public Instruction. Since this is with in one-fourth of one percent of the estimate no adjustment is made for fiscal 1993.

## Legislative Auditor

### Audit Special Revenue

The Office of Legislative Auditor will deposit \$22,159 from the legislative audit state special revenue account to the general fund in FY92. The amount of the cash transfer is calculated such that the necessary minimum cash operating balance will be maintained in the legislative audit account.

### Nonbudgeted Special Audit Cost Recovery

Upon receipt of nonbudgeted cost recovery revenue from a special audit, the Office of Legislative Auditor will deposit up to \$7,000 in the general fund by the end of the 1993 biennium.

## Governor's Office

### **ARCO Balance**

The Governor's Office will deposit the remaining cash balance in the ARCO Coal Company Clark Fork River state special revenue account to the general fund during FY92. The cash balance remains from funds provided by ARCO for the Clark Fork Demonstration Project.

## Secretary of State

### **Administrative Rules Account**

The Secretary of State will make a one-time deposit of \$20,000 from the administrative rules state special revenue account to the general fund during FY93.

### **Records Management**

The Secretary of State will make a one-time deposit of \$20,000 from the Records Management Bureau proprietary account to the general fund during FY93.

## Department of Justice

### **Justice State Special Revenue**

The Department of Justice will deposit approximately \$21,700 from the criminal lab state special revenue account and \$2,700 from the driver improvement fees state special revenue account to the general fund during FY93. The final amounts to be transferred will depend upon balances in the accounts at the time the deposits are processed.

## Department of State Lands

### **Federal Forest Fire Reimbursement**

The Department of State Lands will reduce its expenditures from federal revenue by \$56,000 each year, which will increase the amount of federal revenue transferred to the general fund by a like amount. The federal fire reimbursement funds are received by the department for expenses incurred from loaning department personnel to federal agencies to assist in fire suppression activities. The legislature had appropriated \$100,000 each year of the 1993 biennium.

## Department of Revenue

### **Natural Resource & Corporate Tax Revenue Initiative**

The Department of Revenue estimates that it can generate an additional \$5 million general fund revenue over the 1993 biennium by accelerating out-of-state corporate audit assessments.

### **Income & Miscellaneous Tax Revenue Initiative**

The Department of Revenue estimates that it can generate an additional \$1,517,547 general fund revenue over the 1993 biennium by reallocating its resources to activities which will maximize general fund revenues.

### **Liquor Enterprise Transfer**

Complete implementation of the liquor inventory bailment system makes an additional transfer of \$1 million from the liquor enterprise fund to the general fund feasible in FY92.

## Department of Administration

### **Photocopy Contract Savings**

Favorable rates on the new photocopy term contract reduce the Department of Administration commitment to purchase eight photocopiers. The new contract allows the department to transfer excess cash reserves of \$46,000 each year of the 1993 biennium to the general fund.

### **Computer Services & Telecommunications**

Consolidation of the computer services and telecommunications internal service funds enhances cash flow which, in turn, reduces the capital reserve requirements. The department estimates these cash flow improvements will generate an excess fund balance of \$100,000 in FY92 which will be transferred to the general fund.

### **Interest on Social Security Contributions**

Pursuant to 19-1-602, MCA, interest earned on social security contributions received by the Public Employees' Retirement Board must be transferred to the general fund. The Department of Administration estimates interest earnings of \$110,964 in FY92 and \$28,000 in FY93 will be transferred to the general fund.

## **Department of Corrections and Human Services**

### **FY92 and FY93 Institutional Reimbursements**

Private insurance, Medicaid and Medicare revenue is increasing by \$133,188 in FY92 and 122,425 in FY93 at MDC, \$37,285 in FY92 and \$48,436 in FY93 at EHSC, \$433,163 in FY92 and \$508,657 in FY93 at the Center for the Aged, \$75,233 in FY92 and \$114,452 in FY93 at Veterans' Nursing Home, and \$395,526 in FY92 and \$113,352 in FY93 at MSH. Increased revenue will be deposited by the Department of Corrections and Human Services to the general fund.

### **FY90 Cost Settlements**

Underpayments associated with provider costs for FY90 will add \$255,253 at EHSC, \$668,115 at MDC, and \$126,644 at MSH in new federal Medicaid revenue during FY92. The Department of Social and Rehabilitation Services considers this total estimate of \$1,050,012 valid and the Department of Corrections and Human Services will deposit the increased revenue to the general fund.

### **Court-Ordered Evaluations**

The Department of Corrections and Human Services may charge counties for court-ordered evaluations, pursuant to 46-14-202, MCA, although the department has not done so in the past. Revenue income of \$513,454 in FY93 is an increase to the general fund in accordance with current law. The reduction is made in FY93 only to give counties time to include this adjustment in their budgets.

## **Department of Military Affairs**

### **National Guard Federal Account**

The remaining cash balance in the National Guard federal special revenue account, estimated to be approximately \$183,431, will be deposited to the general fund during FY92.

### **National Guard Contracts Administration**

Approximately \$40,000 will be deposited to the general fund by the Department of Military Affairs from charges to the federal National Guard Bureau for contracts administration during the 1993 biennium.

## **Department of Social and Rehabilitation Services**

### **SRS Unreconciled Balance in Federal Account**

A legislative audit of SRS in FY91 indicated that approximately \$2.5 million in the department federal account actually belonged in the general fund. After the 1991 Legislature, in FY92, SRS transferred to the general fund \$1,500,000 from its unreconciled federal account. Although the final reconciliation is not yet complete, the agency believes that an additional \$1,000,000 can be transferred during FY92.

### **Child Support Enforcement State Special Transfer**

The 1991 Legislature, in HB2, directed the agency to transfer all cash in its CSE state special revenue account over \$500,000 to the general fund at the end of each fiscal year. The agency also proposes to transfer the \$500,000 base to the general fund after FY92. This action will create the need for a small general fund loan for operating cash during the first part of FY93.

**SEARCHS Development**

A development contract for SEARCHS, the computer System for Enforcement And Recovery of Child Support, has been implemented at a cost lower than anticipated during planning. HB2 language requires that all CSE state special revenue funds above \$500,000 at the end of each fiscal year be transferred to the general fund. Therefore, the proposed reduction in CSE state special revenue expenditure of \$200,000 in FY92 will result in transfer of a like amount to the general fund at the end of FY92.

**Child Support Operations**

The agency has submitted a reduction in operating expenses in the CSE Program. HB2 language requires that all CSE state special revenue funds above \$500,000 at the end of each fiscal year be transferred to the general fund. Therefore, the proposed reduction in CSE state special revenue expenditure of \$17,235 in FY92 and \$27,613 in FY93 will result in transfer of a like amount to the general fund each year respectively.

# FUND TRANSFERS AND REVENUE DIVERSIONS REQUIRING LEGISLATIVE ACTION

District Court Reimbursement	Included in HB 2 Amendments	
	<u>1,500,000</u>	<u>6,613,612</u>

## Department of Transportation Coal Tax Allocation for Highways

The coal severance tax allocation for the highway reconstruction trust fund account was scheduled to expire July 1, 1991, but the 1991 Legislature amended 15-35-108, MCA, to continue this allocation until 2003. This recommendation would divert temporarily the coal tax allocation for FY93 only to the general fund.

## Department of Corrections and Human Services Prison Industries Revolving Account

The Department of Corrections and Human Services will have an excess of \$605,212 in its internal services fund for the industries program at the prison, after the equipment authorized by the 1991 Legislature is purchased and cash flow needs are taken into consideration. This amount is recommended for transfer to the general fund.

## Department of State Lands Interest and Income Moneys to Include Sale of Timber

In 1967 the United State Congress recognized timber as a renewable resource and adopted an amendment to the 1889 Enabling Act. It is recommended this amendment to the Enabling Act be accepted and that 20-9-341, MCA, be amended accordingly to include 95% of the interest received from the sale of timber from state school lands in the interest and income account. These actions will reduce the general fund liability for the 1993 biennium \$41.5 million shortfall in the school equalization account by \$4.5 million.

## Department of Justice Driver's License Reinstatement

The 1991 Legislature amended 61-2-107, MCA, to distribute one-half of the license reinstatement fees to 128 incorporated cities and towns for distribution by them to state and local government entities and to private entities. The Department of Justice and the executive budget recommend this \$400,000 be deposited to the general fund to save excessive administrative overhead at both state and local levels of government.

## Department of Justice Highway Patrol ID Cards

The \$11,400 balance in this account is transferred to the general fund at the end of FY93.

## Department of Justice Driver's License Collections

The \$25,000 balance in this account is transferred to the general fund at the end of FY93.

## Department of Labor Unemployment Insurance (UI) Administration Account

Section 39-51-406, MCA, authorizing the unemployment insurance administration account, which receives an

assessment of 0.1% of payroll subject to unemployment insurance tax, restricts use of the funds for administration of programs delegated to the Department of Labor. A temporary amendment to that section is recommended for transfer of \$1.5 million to the general fund at the end of FY92. Based on department records for FY83-FY91, the proposed transfer would result in a projected FY93 ending fund balance of approximately \$2.1 million, which with the estimated 1995 biennium revenues is anticipated to be sufficient for current level needs plus fund a comparable pay plan in the 1995 biennium without an increase in the assessment rate.

#### **Department of Health and Environmental Sciences Hazardous Waste/CERCLA and EQPF Accounts**

The hazardous waste/CERCLA (federal Comprehensive Environmental Response, Compensation and Liability Act) account receives 12% of the resource indemnity trust interest, estimated at approximately \$925,000 and \$997,000 in FY92 and FY93, respectively. Use of funds in the account are statutorily restricted for administration of the Montana Hazardous Waste Act, participation in remedial actions under the federal CERCLA, and payment on CERCLA bonds. Based on current appropriations, there is a projected FY93 ending fund balance of approximately \$1.1 million.

The EQPF (Environmental Quality Protection Fund) receives 4% of the resource indemnity trust interest, estimated at approximately \$308,000 and \$330,000 in FY92 and FY93, respectively, plus all penalties, damages, and cost recoveries collected from responsible parties. Use of funds in the account are statutorily restricted for administration of the state superfund program and for remedial actions pursuant to the Comprehensive Environmental Cleanup and Responsibility Act. In addition to the administrative appropriation, there is a contingency appropriation of \$1 million in the event of an environmental disaster. Assuming that none of the contingency appropriation is expended in the 1993 biennium, there is a projected FY93 ending fund balance of approximately \$1.4 million.

A temporary amendment to the relevant statutory sections authorizing a total transfer of \$1 million from either or both accounts is proposed. Because of the potential need for unanticipated remedial actions funded through either or both of these accounts, the proposed amendments will provide the Department of Health and Environmental Sciences with flexibility to allocate the transfers among the two accounts as circumstances warrant.

#### **District Court Criminal Reimbursement**

Statutory changes are recommended to delete the provision in section 61-3-509, MCA, which directs the state treasurer to refund to counties any additional revenues available from the district court fee in FY93 only. There is no fiscal impact identified in the table above because the 8% reduction of \$222,705 is included in HB2. To allow counties time to adjust their budgets the 8% reduction was applied only to the FY93 reimbursement.

- **FY90 and FY91** actuals show **all** expenditures including statutory appropriations and budget amendments.
- **FY92 and FY93** appropriated include current appropriations, **excluding** budget amendments, administrative authorizations, and some statutory and continuing appropriations.
- **Legislative Council** - Additional Operations Program expenses attributable to the production of the Montana Code Annotated and ancillary publications were shifted to state special revenue funding for the 1993 biennium. Appropriations from state special revenue total \$1,647,025 for the 1993 biennium, an increase of more than \$1 million over actual state special revenue expenses during the 1991 biennium.
- **Judiciary** - The FY92 and FY93 appropriated general fund amounts include nearly \$5.5 million for the District Court Reimbursement Program which was transferred from the Department of Commerce by HB864.
- **Governor's Office** - Actual state special revenue expenditures for the 1991 biennium include about \$788,000 for the ARCO Clark Fork Demonstration Project.
- **State Auditor's Office** - A portion of the costs of the warrant writing system attributable to warrants processed for non-general fund agencies were shifted from general fund to state special revenue beginning in FY91. The bad debts collection function shifted from general fund to proprietary funds beginning in FY92. The total impact of these shifts is a \$603,256 decrease in general fund appropriations for the 1993 biennium. The recommended general fund increase in the absence of the 1993 biennium funding shifts would be 8.8%.
- **Department of Revenue** - 1993 biennium appropriation for distributions of personal property tax to local governments (HB20) increased by \$14,889,875 over 1991 biennium actual distributions. 1993 biennium includes a \$980,838 triennial appropriation for contracting with the University of Montana for studies of forest productivity. Financing for administration of the workers' compensation payroll tax (\$124,131) shifted from general fund to state special revenue in the 1993 biennium. Exclusion of all these amounts results in a net 8% increase in the DOR general fund budget after the proposed general fund reductions.
- **Administration** - FY92-93 includes statutory appropriations of \$9.1 million general fund for TRANS and a \$19.4 million proprietary fund increase for employee health insurance. FY90 actual general fund includes a \$20 million one-time expenditure for workers' compensation. After reductions and adjustment for FY90, there remains a general fund increase of 27.2% for the 1993 biennium.
- **State Fund** - Revisions in GASB changed the state fund from an unappropriated trust fund to an appropriated enterprise fund.
- **Public Employees' Retirement Board** - FY92-93 includes a general fund statutory appropriation authorized by SB226 for adjustment payments to Montana residents who are retirees of state, local and teacher retirement systems.

- **Department of Military Affairs** - The FY91 actual column includes disaster fund payments of \$756,000. These payments were made from statutory appropriations for expenses of declared state emergencies. Excluding the disaster fund expenses, the department's recommended general fund for the biennium increases by 8%.

- **FY90 and FY91** actuals show all expenditures including statutory appropriations and budget amendments.
- **FY92 and FY93** appropriated include current appropriations, **excluding** budget amendments, administrative authorizations, and some statutory and continuing appropriations.
- **Department of Health and Environmental Sciences** - Financing for the environmental sciences division administration shifted from general fund to proprietary revenue authority in 1993 biennium. Exclusion of these general fund expenditures (\$167,495) from actual expenditures for the 1991 biennium results in a net increase of 14.2% in the DHES general fund budget after the proposed general fund reductions.
- **Department of Labor and Industry** - State financing for the JOBS program was budgeted to the DLI in FY91 but eliminated from the FY92-93 budget. Appropriations for silicosis and social security offset benefits were reduced in the 1993 biennium due to declining recipient populations. Exclusion of these general fund expenditures (\$48,880 and \$161,857, respectively) from 1991 biennium actual expenditures results in a net increase of 8.4% in the DLI general fund budget after the proposed general fund reductions.

- **FY92 and FY93** general fund match costs for in-patient youth psychiatric services estimated at \$5,124,373 were shifted from **SRS** to **DFS** beginning in **FY92**. After adjusting for this transfer, the general fund biennial percent change from 1991 actual to 1993 recommended is 22.6% in SRS and 19.3% in DFS.
- The **SRS** Child Support Enforcement account was a proprietary fund during the **1991 Biennium** and has been changed to state special revenue fund in the **1993 Biennium**.

In addition to the decreases outlined in the Family Assistance Program, two welfare benefit categories are increased. Caseloads above those projected during the 1991 Legislature are being experienced in both the AFDC and General Assistance areas. Analysis of data covering AFDC and GA through October, 1991, indicate the need for additional expenditure authority for both fiscal years 1992 and 1993. The legislative decision to place payment levels at 42% of the Federal Poverty Index is maintained in the increases for AFDC and GA.

In addition to the decreases outlined in the Medicaid Services Program, an increase is recommended for State Medical Benefits. Paid claims information through November, 1991, indicate that reductions forecast by the agency due to transfer of some clients to Medicaid and to managed care are not being realized to date. The unanticipated caseload increase in General Assistance is also reflected in the State Medical Program. The increase requested reflects agency belief that actions to reduce costs in the program will succeed at a slower rate than anticipated during the 1991 Legislature.

ITEM	FY92	FY93
• Division Operating Costs	(26,779)	(39,103)
• St. Med. Claim Processing Contract	(45,000)	(45,000)
• Personal Care Contract	(85,000)	(115,000)
The agency proposes to make these reductions through administrative adjustments by the contract provider without any reductions in service.		
• Durable Medical Equipment	(0)	(97,238)
Medicaid purchases wheelchairs, wheelchair accessories and eyeglasses through independent providers. By purchasing these items through a single source in FY93, costs are projected to be lower.		
• OBRA 90 @ 75%	(155,300)	(307,900)
The agency will delay full implementation of this new federally mandated service providing rehabilitation services to children. A reduction of federal revenue expenditures of \$393,657 in FY92 and \$787,830 will also occur.		
• Hospital Rate Increase	(0)	(920,613)

This reduction will eliminate the hospital rate increase appropriated for FY93. A reduction of federal revenue in the amount of \$2,355,590 in FY93 is associated with this reduction. The department will go forward with the scheduled hospital rate study to determine appropriate reimbursement levels for hospital based services and provide a recommendation for rebased rates for the 1995 biennium.

- **OB/GYN Rate Increase at 85%** (210,000) (282,380)

The agency will reduce the appropriated rate increase from 90% of allowed costs to 85% of allowed costs. This new proposed rate will still be a significant increase. A reduction in federal revenue of \$532,312 in FY92 and \$722,531 in FY93 will also result.
- **Managed Care Implementation Accelerated** (0) (2,044,014)

The 1991 Legislature funded managed care based upon an implementation date of January 1, 1993. The agency proposes to implement by October 1, 1992. The earlier implementation date along with more recent estimates of AFDC Medicaid caseload indicate that additional FY93 savings are expected to be achieved. A reduction in federal revenue of \$5,230,057 will also result.
- **Medicare Buy-In Fund Switch** (400,000) (800,000)

Under current federal regulations, clients for whom the agency pays buy-in to Medicare with 100% general fund can be transferred to programs funded with the federal matching rate. The program change will be implemented in January 1992. Reduction in general fund requires matching increases in federal expenditures of \$400,000 in FY92 and \$800,000 in FY93.
- **State Medical Program Increase** 3,939,406 2,390,622

An increase is included in the State Medical Program due to caseload increases and expenditure trends during the first five months of FY92.

ITEM	FY92	FY93
• Operating Costs	(12,557)	(18,838)
• Non-Assumed County Computer Costs Fund Switch	(0)	(250,000)

Eligibility determination TEAMS computer costs for the counties which operate non-assumed welfare programs will be billed to the county in FY93. State special revenue is increased by \$250,000 in FY93 to reflect county payment. The eligibility determination computer costs for counties which now levy 12 mills (state assumed counties) will continue to be paid by the department with general fund.

- **TEAMS Operations** (150,000) (0)  
Computers for the TEAMS program will be leased instead of purchased resulting in a FY92 savings. At a federal matching rate of 50/50 for system operation, a reduction in federal expenditure of \$150,000 in FY92 will also result.
- **SEARCHS Development** (0) (0)  
The development contract for SEARCHS has been implemented at a cost lower than anticipated during planning. A reduction of Child Support state special revenue expenditure of \$200,000 in FY92 will eventually produce a like transfer from CSE to the general fund at fiscal year end. A reduction in federal expenditure of \$1,133,333 in FY92 will also result.

• Operating Costs	(1,539)	(2,279)
• Visual Services Provider Rate Delay	(0)	(3,636)
A provider rate increase of 4.5% each fiscal year was approved by the 1991 Legislature. This recommendation delays implementation of the FY93 rate increase for 6 months until January 1, 1993. The FY92 rate increase was implemented on schedule and is not affected by this proposal. Matching federal revenue expenditure will be reduced by \$9,304 in FY93.

ITEM	FY92	FY93
• <b>Operating Costs</b>	(6,883)	(11,834)
• <b>Part H. Fund Switch</b> Unexpended federal funds from prior year grants are available in the amount of \$120,000. General fund is replaced with these federal funds in FY92.	(120,000)	(0)
• <b>Part H. FY92 Delay</b> A reduction in the original agency funding request by the 1991 Legislature, coupled with the need for more time to meet all the federal program requirements, led the agency to seek a one year delay in full implementation of the Part H program. This delay will result in a one time savings during FY92. The agency intends to complete full implementation of the program as appropriated by the 1991 Legislature in FY93.	(200,000)	(0)
• <b>DD Current Level Benefit Reversion</b> Based upon information through the first 5 months of FY92, a general fund excess of approximately 1.5% is anticipated to occur. The FY92 general fund is reduced accordingly.	(119,150)	(0)
• <b>DD Provider Rate Delay</b> A provider rate increase of 4.5% each fiscal year was approved by the 1991 Legislature. This recommendation delays implementation of the FY93 rate increase for 6 months until January 1, 1993. The FY92 rate increase was implemented on schedule and is not affected by this proposal. Matching federal expenditure will be reduced by \$174,699 in FY93.	(0)	(492,600)

- Supported Living - Supported Work Delay** (86,296) (0)  
 The 1991 Legislature provided an expansion of 30 slots for supported living and supported work programs for the developmentally disabled on the waiting list. This action would delay implementation of the new slots until FY93. Matching federal expenditure will be reduced by \$221,904 in FY92.
- DD Group Home Start-up Funds Elimination** (0) (400,000)  
 The agency proposes to go forward with five new DD group homes scheduled for construction in FY93 but eliminate the state general fund start-up funds from the implementation. The agency is pursuing alternative sources of start-up funding including low interest loans and asking sites interested in providing services to contribute to some initial costs of construction.

- | ITEM  | FY92 | FY93 |
|---|------|------|
| <ul style="list-style-type: none"> <li>• <b>Personal Services Reduction</b> (335,104) (348,545)<br/>HB2 contained a 2% vacancy savings reduction for Community Services field staff and exempted from that 2% approximately 185 social workers. An additional 4% is included in this reduction for all field staff which may be partially made up by operating savings.</li> <li>• <b>Medicaid Parental Assets Rule for Youth Psychiatric Program</b> (233,693) (928,493)<br/>This reduction proposal would require a rule to consider parental assets of a child in youth psychiatric or residential services medicaid eligibility determination, instead of considering only the assets of the child. This reduction recommends the proposed rule change be effective April 1, 1992.</li> <li>• <b>Foster Care Rate Increase 6 Month Delay in FY93</b> (0) (194,772)</li> </ul> |      |      |

HB2 provided a 4.5% increase in foster care payments in each fiscal year of the biennium. This recommendation delays implementation of the FY93 increase for six months until January 1, 1993. Federal revenue expenditure will be reduced by \$70,585 in this decrease.

<ul style="list-style-type: none"> <li> <b>Day Care Rate Increase Fund Switch</b>  HB2 contained a federal day care block grant and instructions for replacing general fund in the day care rate increase with the block grant funds if federal approval was obtained. This reduction implements the reduction of the general fund. The replacement federal revenue is already in the DFS budget. This action will not reduce the total amounts appropriated for the day care rate increase. </li> </ul>	(38,708)	(58,083)
<ul style="list-style-type: none"> <li> <b>Title IV-B Federal Revenue Increase Fund Switch</b>  The actual final allotment of Title IV-B funds received by DFS was \$1,122,093 in FY91. The amount budgeted in FY92 and FY93 was \$1,046,396. Therefore, a reduction in general fund and equal increase in federal revenue is proposed to recognize the additional federal grant funds. </li> </ul>	(75,697)	(75,697)
<ul style="list-style-type: none"> <li> <b>Operating Costs</b> </li> </ul>	(20,000)	(20,000)
<ul style="list-style-type: none"> <li> <b>Cap Alcohol &amp; Drug Treatment</b>  This reduction would cap expenditures at \$200,000 per year. After this reduction, FY92 and FY93 appropriations will remain slightly higher than the FY91 actual expenditure level of \$198,960. </li> </ul>	(12,100)	(13,300)
<ul style="list-style-type: none"> <li> <b>Domestic Violence</b>  This reduction represents an 8% reduction in the appropriation and a 6% reduction below FY91 actual general fund expenditure level of \$132,212. </li> </ul>	(10,800)	(10,800)
<ul style="list-style-type: none"> <li> <b>Big Brothers and Sisters</b>  This reduction represents an 8% reduction in the appropriations. After the reduction, increases of 0.6% in FY92 and 5.7% in FY93 above the FY91 actual expenditure level of \$158,393 will remain. </li> </ul>	(13,860)	(14,553)
<ul style="list-style-type: none"> <li> <b>Miscellaneous Federal Recovery Increase Fund Switch</b>  This item represents efforts of the agency to increase eligibility determination on clients and implement revisions in the federal cost recovery process to obtain maximum federal revenue. Additional revenues will be collected and offset general fund. </li> </ul>	(295,931)	(324,962)
<ul style="list-style-type: none"> <li> <b>Continuum of Care</b> </li> </ul>	(599,919)	(165,259)

This item represents an implementation in the continuum of care consistent with current planning and start-up activities as presented to the Legislative Finance Committee in November 1991. The agency will attempt to offset the FY93 portion of this reduction through refinancing and additional federal cost recovery.

- **Foster Care Increase** 2,202,939 (0)

Information available at this point in FY92 indicates that increases in child placement and services are higher than anticipated in the appropriation approved by the 1991 Legislature and that additional general fund is required to offset expenses above the expenditure caps in the non-state assumed counties. This increase is the best estimate available currently for the level of expenditures during FY92 for foster care. The recommendation includes \$600,000 for youth currently in the DFS system but waiting for an appropriate level of service slot.
- **HB 371 - Chapter No. 556** (100,000) (0)

The bill appropriated \$200,000 for the biennium for additional in-home services aging grants. This reduction would reduce the appropriation by 50%.
- **HB 491 - Chapter No. 559** (50,000) (0)

The bill appropriated \$100,000 for the biennium for increased respite care for foster children. This reduction would reduce the appropriation by 50%.

- FY90 and FY91 actual show all expenditures including statutory appropriations and budget

amendments.

- **FY92 and FY93** appropriated include current appropriations, **excluding** budget amendments, administrative authorizations, and some statutory and continuing appropriations.
- **Department of Fish Wildlife and Parks** - FY92 includes biennial appropriations of state special and federal revenue for capital projects. General fund support for state parks was budgeted in FY92-93.
- **Department of State Lands** - FY92 includes \$250,000 of one-time general fund for a recreational access study and \$6,373,650 for forest fire suppression costs incurred during the summer and fall of 1991. FY91 includes \$3.02 million general fund for fire suppression costs. In FY92 there is a \$3.3 million biennial state special appropriation for reclamation.
- **Department of Natural Resources and Conservation** - FY92 biennial appropriations for water development, renewable resource, and reclamation and development grants.
- **Department of Agriculture** - FY92-93 includes a funding shift within the Environmental Management Division. General fund appropriations were shifted to state special revenue for a biennial general fund reduction of \$995,000. If the funding shift had not occurred the general fund budget would show a net increase of 1.08% after the reductions.
- **Commerce & DOT** - Authority of \$6.6 million for the Aeronautics Division and the Transportation Division was transferred from Commerce to DOT.
- **Commerce & Judiciary** - At the beginning of the 1993 biennium, \$5.5 million for the district court reimbursement (DCR) program was transferred from Commerce to Judiciary. DCR accounted for 50% of the commerce general fund appropriation in FY91. The DCR program of \$5.5 million, combined with the Transportation Division general fund appropriation of \$957,951 transferred to DOT, would increase the general fund appropriation to Commerce to \$12.96 million for a net 18% increase over the 1991 biennium general fund appropriation.
- **Commerce & Workers' Comp** - FY92 proprietary funds include a one-time statutory appropriation of \$8.5 million to the Board of Investments for the "old fund" workers' compensation revenue bonds.

## ITEM

FY92

FY93

- Montana Conservation Corps** (4,376) (4,376)  
 This reduction will slightly delay the implementation of this new program.
- State Parks Operations and Maintenance** (30,083) (30,461)  
 This reduction diminishes the major maintenance at several state parks and reduces the production of public information to educate park visitors.

The Department of Livestock identified \$143,000 of general fund reductions which were incorporated into the 1993 biennium budget. Because the department FY92 and FY93 general fund budgets were less than FY91 general fund expenditures, OBPP did not require the full 8% general fund reduction.

ITEM	FY92	FY93
• Funding Shift	(20,000)	(20,000)

The department has available additional federal funds from the Meat and Poultry Inspection Program which can be used to replace general fund. General fund is decreased and federal revenues are increased by \$20,000 each year.

ITEM	FY92	FY93
• <b>Program Reductions</b>	<b>(26,769)</b>	<b>(0)</b>
The general fund reductions for both years will be achieved in FY92 through vacancy savings. There were 5.0 FTE vacant for the first quarter of FY92. Two of these positions were filled October 1st. By leaving one of the remaining three open through October and the remaining two open through December, the RWRCC will meet its total 8% reduction. Technical work on a second set of negotiations (Fort Belknap is currently in progress) will not begin until after these positions are filled.

Coal severance taxes are statutorily distributed to the local impact account per the provisions of 15-35-108, MCA. The local impact account provides assistance to local governmental units which have been required to expand the provision of public services as a consequence of large-scale development of coal mines. Pursuant to 90-6-207, MCA, the Department of Commerce must designate priority communities. During the 1991 biennium, the department determined that no community in the state satisfied the statutory criteria for a priority community.

In addition to the decreases outlined in the Corrections System, the corrections program is substantially impacted by the rising population and the cost of medical care in correctional institutions. The Department of Corrections and Human Services (DCHS) estimates a corrections medical increase of \$872,885 in the biennium, resulting in the need for additional funding in FY93. Other population increase costs of \$920,938 in FY92 and \$1,595,931 in FY93 are projected.

- | ITEM  | FY92      | FY93 |
|---|-----------|------|
| • <b>Community Services</b>   | (670,067) | (0)  |
| Delayed implementation of selected portions of approved modifications in FY92 only: Pre-release expansion \$264,155; House Arrest \$45,000; Intensive Supervision Program expansion \$22,142; Graduated Sanctions \$66,120; Women's Pre-release \$237,379; and Probation and Parole enhancements \$35,271. The balance remaining for expanded community services is \$314,507 in FY92 and \$911,434 FY93. |           |      |

• <b>Local Jurisdiction Sentencing Options</b>	(17,312)	(0)
Modification approved by 1991 Legislature is reduce 100% in FY92 only.		
• <b>General Savings</b>	(18,574)	(18,574)
Workers compensation rate adjustments are reflected in personal services of \$18,574 each year of the 1993 biennium.		
• <b>License Plate Factory</b>	(280,000)	(235,000)
Surplus funding, due primarily to a decreased price of aluminum for the license plate plant, will enable reduced supplies, repair, and maintenance.		
• <b>Population Increase</b>	820,938	(0)
An increase is included in the Corrections program due to increased population throughout the corrections system.		
• <b>Corrections Medical</b>	622,885	(0)
Increase in medical expenditures due to increased population and medical costs rising faster than inflation.		
• <b>Technical Advisor to Montana State Prison</b>	65,000	(0)
A biennial appropriation is needed for an on-site professional to perfect the technical operation at the prison to enhance security, inmate classification, inmate grievance procedures, and overall prison policies and procedures.		
• <b>Language Recommended</b>	(0)	(0)
The DCHS is granted an exemption from personal services transfer restrictions in HB2. The exemption will allow the flexibility necessary to manage programs effectively.

In addition to the decreases outlined in the Developmental Disability System, staffing levels were increased at Montana Development Center (MDC) 21.90 FTE in FY92 and 26.50 FTE in FY93 and Eastmont Human Services Center (EHSC) 1.00 FTE each year of the 1993 biennium. Subsequent to Medicaid surveys in FY91, the program was cited for inadequate staffing levels. Adjustments were made for staff deficiencies necessary to continue to meet Medicaid certification requirements.

Unanticipated increases in service contracts at EHSC are required for Medicaid certification (i.e. medical, dental, pharmacy, occupational therapy and laundry).

- **FY90 and FY91** actuals show all expenditures including statutory appropriations and budget amendments.
- **FY92 and FY93** appropriated include current appropriations, excluding budget amendments, administrative authorizations, and some statutory and continuing appropriations.
- **Supplemental for public school foundation and guaranteed tax base.** General fund of \$41.534 million is added to offset the revenue shortfalls of \$29.39 million, increased costs of \$.936 million, and appropriations of \$11.208 million in excess of estimated revenue made by the legislature in the 1991 session. The current revenue shortfall of \$33.89 has already been reduced to the \$29.39 million by the recommended addition of \$4.5 million of revenue from timber sales.
- **Montana University System** - FY92 appropriated column does not include the \$3 million general fund capital projects, which would increase the 1991 actual to 1993 recommended change to 15.2%. Reductions are shown only to the general fund appropriations, although under the

College and University Business Administration (CUBA) fund structure, general fund is combined with tuition, 6-mill levy and other revenue in the current unrestricted fund. The \$4.673 million general fund reduction is not included, based upon action of the Board of Regents to substitute a tuition surcharge, which would be an increase to the current unrestricted fund, and the executive budget recommendation to offset this with the liquor stores recommendation and general fund.

The total general fund reduction for the Montana University System (MUS) is \$2,165,522 in FY92 and \$14,137,888 in FY93, as shown on the individual agency tables. The original FY92 target 8% reduction of \$10,427,151 was decreased and the FY93 amount was increased to the \$14.1 million by request of the CHE in order to allow lead time for planning purposes.

After the Board of Regents adopted a tuition increase at its October, 1991, meeting to replace \$4.673 million of the reduced general fund cut, the Special Session call recommended replacing this tuition amount with revenue generated by a liquor stores initiative and any remaining balance required with general fund.

The respective MUS tables show the FY92 reductions as allocated and adopted by the Board of Regents October 31. The FY93 reductions recommended are distributed as a proportionate share of the total general fund appropriated for the MUS by the 1991 Legislature. All reductions are shown in personal services to enable the Board of Regents to adopt revised operating budgets in accordance with substantive law and HB2 boilerplate provisions.

ITEM	FY92	FY93
• Personal Services and Operating Expenses	(36,879)	(36,553)

The personal services budget increased by 6.5% for the 1993 biennium due to the actual vacancy savings experienced by this program. The reduction in personal services reflects this experience. Operating expenses are reduced due to savings in transportation contracts authorized in 20-8-121, MCA, coming in lower than budget and to management of supplies and materials.

All of the recommended items for legislative action were appropriated in HB5. The 1991 Legislature approved a \$3 million general fund biennial appropriation for the Montana University System in HB 5. A total 8% reduction plan of \$240,000 was developed cooperatively by the Office of the Commissioner of Higher Education and Architecture and Engineering of the Department of Administration. The \$600,000 computer equipment purchase appropriation for Eastern Montana College is not reduced.

ITEM	Biennial
<ul style="list-style-type: none"> <li> <b>MSU Engineering/Physical Sciences Complex</b>  Matching support of \$500,000 for construction is reduced 15%. </li> </ul>	(75,000)
<ul style="list-style-type: none"> <li> <b>Northern Montana College Gym</b>  \$1,300,000 for repair costs is reduced 6.4% </li> </ul>	(82,500)
<ul style="list-style-type: none"> <li> <b>Deferred maintenance and equipment</b>  Unspecified maintenance and equipment projects are reduced 13.75% </li> </ul>	(82,500)
<ul style="list-style-type: none"> <li> <b>Capitol Complex Parking Lot Improvements</b>  An appropriation of \$123,014 for the improvement of parking lots in the capitol complex is reduced to \$73,014. Postponing this work will enable a transfer of funds from the capitol land grant to the general fund. The remaining appropriation will be used for repair and maintenance of existing parking lots. </li> </ul>	(50,000)
